

Michigan SavesSM

Making Energy Improvements Even Easier for the City of Detroit

We're introducing a new commercial program with more affordable rates and longer terms for solar photovoltaic, battery storage, or electrification projects that will allow your organization/business to save energy and money from the moment of installation.

GETTING STARTED

Find your Michigan Saves authorized contractor to get an estimate on qualifying commercial energy improvements.

LOAN APPLICATION

Apply for financing with our lender, Team Financial Group—your contractor will provide you with instructions to apply online or by phone.

Once the financing is approved, your contractor can get right to work.
