Lead Fund Awareness Toolkit Captions

Own an older home in Michigan? Here's a resource worth knowing about: The Lead Poisoning Prevention Fund helps eligible homeowners and small rental property owners cover 50% of lead abatement costs for projects like windows, siding, doors, and more. It's a great opportunity to make your home safer while keeping the historic charm you love.

If your home was built before 1978, hazardous lead paint could exist in surfaces. This can cause lead poisoning risks that are especially harmful for families with children and pregnant people.

The Lead Fund can help you:

- ☑ Test for lead
- ☑ Connect with certified lead abatement contractors
- ☑ Cover half the cost of abatement projects like windows, siding, doors, and more
- ☑ Access low-interest financing for the rest of the cost

Get started by submitting a letter of intent today:

MichiganSaves.org/LeadFund

Replacing old windows? Scraping exterior paint? Refreshing siding on an older home? If you live in a home built before 1978, you'll want to check for lead paint first. The Lead Poisoning Prevention Fund could help you check for lead paint and cover 50% of the abatement costs.

The Lead Fund helps make historic renovation more manageable by covering half the cost of lead abatement projects for eligible homeowners and small property owners. They'll connect you with certified lead abatement contractors to complete the job safely. For the remaining cost, low-interest financing is available.

If an older home project is on your to-do list, this is worth a look: MichiganSaves.org/LeadFund

Your home is an investment in your family's future. But for historic homeowners, lead paint can become a hidden safety risk over time, especially for children and growing families. The Lead Poisoning Prevention Fund helps eligible homeowners cover 50% of lead abatement costs, making it easier to protect both your household and your investment.

A safer home today can mean a stronger future tomorrow. See if your home qualifies, and submit a letter of intent to get started: MichiganSaves.org/LeadFund

You love your historic home for its character: Original trim. Hardwood floors. And maybe lead paint?

If your house was built before 1978, it could be hiding hazardous lead.

The good news? The Lead Poisoning Prevention Fund can cover half the cost of lead abatement upgrades like new windows, siding, and more.

Make your home safer, preserve the past, and boost curb appeal — while only paying half. Low-interest financing can help cover the rest.

Keep the charm. Lose the harm. See if you qualify today: MichiganSaves.org/LeadFund
